**Attachments:** Glyphosate one pager 12.11.19.docx

Billy – Thanks for your good work. Attached are my comments on the Glyphosate two-pager (mostly for ease of reading & clarity). I had a few questions. And, as always, please CORRECT for accuracy and other things. I always welcome push-back.

On to Neonics!

CarolAnn,

Attached are one pagers for the neonics (PIDs) and glyphosate (ID). The neonics is actually two one pagers: one for the nitroguanidine substituted neonicotinoid insecticides (clothianidin, dinotefuran, imidacloprid, and thiamethoxam) and one for acetamiprid which is a cyano-substituted neonicotinoid. These are all planned to go out together.

Sure. We can develop one-pagers, using the triazines one-pager as a model. CC'ing Elissa and Billy so that they can work with the teams to get these started.

**Subject:** Prepping the Administrator for Neonics and Glyphosates?

Rick & Ed – During OPP’s review of its Upcoming Actions on Wednesday December 11, I’d like to discuss preparing the Administrator for the Glyphosate and Neonics actions in January.

Derrick suggested that OCSPP might benefit from sending a Neonics one-pager to the Administrator before January. (And Kaythi is working with Greg on sending an early version of Comms to OPA before the holidays.)

I think that’s a good idea; is it feasible? During the transition to a new IO Special Assistant for OPP, I would work closely with your folks in Kaitlin’s role, if that helps.

I look forward to our conversation on Wednesday, if not before. Thanks.
